SSU-3010 30khz Ultrasonic Machine for textiles

Ultrasonic machine for edge finishing/cutting/sealing/ embossing textiles

This 30Khz quiet ultrasonic machine has top and bottom drive rollers that both drive vertically giving a very positive drive and narrow working area.

Applications for this are for cutting and edge sealing or cutting and joining manmade fabrics, particularly for Lingerie, sport wear, waterproof garments, non-woven, satin, knitted products, bedding, window shades, surgical masks, lace etc
